Presenting Spring/Summer
Collection 2026

Small batch limited edition
pieces for discerning
and conscious women

The Korse Story

Korse traces its beginnings to a modest backroom in my grandmother Paula's small Helsinki apartment in the 1950's where she crafted airy silhouettes, bras and refined sleepwear with an intuitive sense of beauty paired with quality. She was a young woman with innate style and the desire to create beauty with comfort. Her designs became cherished for their femininity, lightness and quiet sensuality.

Decades later, I've been inspired by her legacy and a profound personal and spiritual calling to revive Korse, creating reimagined designs for the conscious woman with a hint of nostalgia to caress our bodies with ethical comfort.

Each boudoir dress & slip is designed and crafted with care and love by our three women team in Barcelona, using recovered high quality natural surplus fabrics supporting small commerce and upcycling.

The Korse Concept:

Effortless versatility
and elegance

The Korse Philosophy:

We celebrate softness towards
our bodies and the world
we share

One of Paula's original pieces from
the 50's.
